SAFE

Universal fire extinguishing spray, 750 ml

750 MAX

Primarily intended for extinguishing incipient fires in homes, kitchens, garages, cars, offices, cottages, etc. Certified for extinguishing fires of type A (solid flammable substances), F (edible oils and fats), E (Lithium batteries up to 100Wh and electrical equipment under voltage up to 1000 V). Can be used down to -20 °C.

A Solid Fires

F Edible Oil Fires

1000V Electrical Fires

Lithium Battery Fires

- The spray uses a special foam concentrate for extinguishing lithium battery fires, which excels in its wetting and cooling capabilities.
- SAFE 750 MAX allows immediate intervention at the first signs of fire and, thanks to modern technologies and innovative standards, offers extremely effective and universal extinguishing. It is specially developed for safe and effective control of initial fires of these basic classes:

A – Solid fires (wood, paper, straw, rubber, coal, textiles, etc.)
E – Lithium battery fires up to 100Wh
– Electrical equipment fires (fires of electrical equipment under voltage up to 1000 V)
F – Edible oil fires (vegetable or animal fats)

Completely Safe

- Protects without compromise, extinguishes quickly and effectively
- After its use, no traces, stains or spots remain
- Your surroundings will remain untouched and you do not have to worry about any collateral damage in areas that were not affected by the fire

Environmentally Friendly

- The unique ecological composition with active substances enables safe and effective extinguishing of fires involving lithium batteries, solids, fats and oils

-20 C Frost Resistant Down to -20°C

- The basis of the SAFE 750 MAX extinguishing agent is the BETA EFFEM foam concentrate, which, thanks to its consistency, can cope even in extreme conditions in the temperature range from -20 °C to +50 °C

Quick and Easy to Use

- This versatile extinguishing agent is designed to provide you with fast and reliable protection against emerging fires in a variety of situations - whether in a car, workshop, garage, home, office, during a barbecue or on outdoor trips

Handle like a Regular Spray

- Simply remove the red safety cap, approach the fire from a safe distance, point the sprayer at the source of the fire and activate the spray by pressing down the nozzle

Certified and Tested

- The SAFE 750 MAX fire extinguisher is developed and manufactured in the European Union under a valid license exclusively for the SAFE brand
- Thanks to the higher content of active substances, this spray ranks among the most effective and versatile fire extinguishers on the market

Compact Size

- The SAFE 750 MAX fire extinguisher spray stands out for its compact dimensions and low weight, which ensures that anyone can use it - from children to seniors

Technical specifications

Fire classes	A, F and E
Extinguishing ability	5A - Solids 5F - Oils and greases E - Lithium batteries up to 100Wh E - Electrical equipment under voltage up to 1000V
Extinguishing agent	BETA EFFEM foam concentrate
Propellant	Nitrogen / N2
Pressure (at full capacity)	1.0 MPa at 25 °C
Spray range	3 – 4 m
Extinguishing time	25 s
Storage conditions	• Temperature: -20 °C to +50 °C • Humidity: 5% to 95% RH without condensation
Extinguishing agent volume	750 ml
Environment	Non-toxic and environmentally friendly
Declaration of conformity	CE
Tested	MPA Dresden GmbH, EQC
Product dimensions	74 mm × 310 mm
Product weight	1000 g
Carton dimensions	325 mm × 310 mm × 235 mm
Carton weight	13.1 kg
Number of pieces per carton	12 pcs
EAN code	0703123018289
